Processing	washed
SCA Cup Score	87
Volume	300 kg

Wait a minute! Is there really 250 g in there? The pack doesn't seem that loaded. Yes, it does. There's 250 g in there. Our scales are calibrated. We even recently had to pay 90 Euros to the Eichamt for a new calibration sticker. Back to the topic: RUMUKIA has dense kernels and thus little volume. Dense kernels are a sign of slow growth. And this is an expression of perfect growing conditions. And this is transferred to the cup.

Per bag 250 g
